GETAWAY SOFABED

GETAWAY SOFABED

- Easy, three-step open and close operation allows for quick set-up and clean up
- Seat and back cushions remain attached while opening and closing the mechanism
- The European design of the frame makes this sofa sleeper as comfortable as any other piece in your home. Complete with webbing suspension, multi-layered foam in the seat, and fully padded arms and back
- Removable arms and back for ease of delivery into tight spaces
- Storage for pillows in the back cushion cavity
- Available fabrics and leathers

Mattress:

- Super Single: 27.5W" x 79"L
- Super Double: 55"W x 79"L
- Super Queen: 63"W x 79"L
- Mattress is specially designed with 4" of 1.8 density foam to provide stability and support. The top 1" layer is made of gel-infused memory foam which provides a better night's sleep. The memory foam conforms and adapts to each person to relieve pressure, while the gel dissipates the heat keeping the body cool and comfortable
- Sleeper mattress can be attached to grid so it does not shift around while opening and closing
- Meets CAL 117 and all fire retardant code standards 1632, 1633 certification for mattress

Construction information:

- Seat cushion: Multi layered, 1.8 density HR wrapped foam core that is wrapped in fiber for a soft, plush sit
- Back cushion: Multi layered, 1.1 density HR foam, fiber wrapped
- Fully padded on the outside arms, front rail and outside back
- Wood leg optional colors: Hazelnut and Espresso

Mattress Cover:

- The mattress cover is made of a bamboo/polyester blend is breathable and thermally regulating. The cover is also anti-microbial and dust mite resistant, giving you peace of mind

Mechanism:

- Powder coated steel frame with aluminum die-cast legs offers a durable design with no center support bars
- Upper two thirds of the mechanism's sleep surface is an orthopedic sleeping grid which provides consistent support and allows the true comfort to be provided by the mattress
- Lower third of the sleep surface is constructed with webbing as it sits directly under the seat cushion. This is consistent with upholstery seating and provides superior seating comfort while the sleeper is in the closed position
- The unit is free-standing and self-supporting with its own legs, and does not depend on any part of the frame structure for support
- Non-extruding rivet joints (completely encased inside the perimeter frame) with a soft metal edge which attaches the sleeping grid to the exterior frame
- Front and back stabilizing bar prevents mattress from moving
